TEAM SPIRIT

Code Runners is a boutique software development company that offers Software and Data Services (<https://www.code-runners.com/>). Our projects are primarily in the Marketing, Data Analytics, Visualization and Consumer health domain. We like to be challenged by complex projects with tight deadlines and work together as a team to deal with them. Would you like to join us in our journey to be our best? We're looking for **IT business analysts** to join our software development team in Sofia.

### RESPONSIBILITIES

- Gather business specifications from customer and write specification documents using Agile methodology via creating user stories, mockups, etc.
- Perform change impact analysis based on systems dependencies considering time, effort, and business priorities
- Work with a team of developers and QAs during the development process
- Conduct project presentations and compile reports
- Ensure accuracy of delivered information, logical consistency and overall quality of work

### QUALIFICATIONS

- At least 2 years of professional experience in business analysis and specification for software systems
- Excellent analytical skills and attention to details
- Client-focused skills and ability to listen and understand customer requirements
- Fluent English language (written and spoken)
- Understand current business processes and help to model new ones
- MS Office advanced skills (e.g., pivot tables, complex lookups, formulas, etc.)
- Communication, presentation and organizational skills, proactive and outgoing
- Tactful and diplomatic with ability to work accurately and effectively under pressure

### PREFERRED QUALIFICATIONS

- Education or experience in Computer Science, Business Administration
- Software development knowledge or experience
- Account management knowledge or experience
- Experienced in using various architecture modelling tools and notations such as UML, ArchiMate

Work hard,  
play hard
